

CHANGING VIEWS TIMELINE WORKSHEET

Name:

Date:

Directions: Using the bar below, create a timeline that includes information about each of your assigned scientists. Your timeline should include at least the following information:

- Birth and death dates of the scientists.
- The major discoveries they made (including their theories about our understanding of the Universe, such as a heliocentric view).
- Who and what influenced their thinking.

On the back of this sheet discuss how each scientist's thinking progressed.
